

BX Eco-Wash Convection Oven

Innovative equipment
for traditional baking

MONO Equipment's BX Eco-Wash Convection Ovens incorporate a high-end, totally integrated self-wash system which provide a highly effective solution to baking, roasting and cooking a wide variety of foods without cross contamination of odors or flavors.

The Eco-Wash oven has been specially designed to provide a complete baking and self-wash system which quickly and easily removes all odors and food from the oven chamber, enabling retailers to switch between different food groups such as bacon and croissants in just 35 minutes.

Each oven features an innovative, highly advanced self-wash facility which offers five specialist cleaning programmes – the hot flush which cleans, de-greases and de-odorises the oven in just 35 minutes, gentle wash, standard wash and power wash along with a custom wash facility which can be used to design your own unique wash programme to suit your specific needs.

Features and Benefits

- Available in 6 size formats from 4-pan to 15-pan capacity
- Provides the flexibility to switch between different food groups
- Suitable for standard 400mm x 600mm pans
- Features 5 powerful wash programmes
- Variable fan speed
- Takes 35 minutes to go from meat to sweet
- Removes the need for on-going expensive, professional deep cleaning
- Prevents cross contamination of food with tastes and odors
- Reduces risk of fire by preventing the build-up of grease and food deposits on the fan
- Features Energy-Saving Eco2-Touch Controller
- LED illuminated bake chamber
- Power Max Plus cleaning cartridge is sealed therefore no handling of harmful chemicals
- Improves quality of the food by always cooking in a clean atmosphere
- Full oven control and monitoring via an App
- 7-day timer
- Energy saving sleep modes reduces energy consumption by up to 66%
- Multi-Bake function
- Auto shutdown facility
- USB programmable
- Integrated steam system
- Diagnostics function constantly monitors ovens performance
- Saves valuable staff time
- Clear voice prompts
- Overlapped and sealed, foil-fronted solid slab insulation
- Stainless steel construction
- Clear glass door
- Twin-pane, vented glass
- Ovens available in left or right hand orientation
- 2-year warranty

Simply select the self-clean option on the Eco² Touch-Screen controller to choose the desired wash programme.

The BX Eco-Wash system provides five distinct wash programmes which cater for every eventuality.

Clear and precise information is provided for each stage of the wash process.

The oven can now be programmed, managed and monitored remotely via a smart phone, IPAD or tablet device.

Mono's Power Max Plus cartridge has been specially designed to work with our BX Eco-Wash Convection Ovens.
