BX Base prover

Proving & Retarding

Provers

Description

The Mono BX base prover compliments our convection ovens and other auxillary equipment from our BX range. It can be used as a base prover underneath an oven or as a stand alone unit. the unit is mains water connected, so no need for manual filling of the unit. Operation is simple via a one touch waterfill button.

The BX base prover creates the perfect humid environment for your doughs.

Features

- Stainless steel
- Mobile On castors
